

Homework Policy

Subject area: Mathematics

Head of Department: Urvish Patel

The purpose of homework is

- To develop students' fluency and understanding of key mathematical concepts
- To provide students with opportunities to revisit and consolidate key concepts
- To provide students with opportunities to apply the concepts to different scenarios

Homework within Mathematics enables students to:

- Work independently
- Develop resilience
- Develop understanding
- Develop problem solving skills
- Develop wider study skills
- Be responsible for their own learning

The amount of homework

Subject:	Years	Amount of time allocated for Mathematics homework each week at Corby Business Academy:
Mathematics	10 and 11	45 minutes
Mathematics	7 – 9	30 minutes

Years 10 and 11 - GCSE:

It is an expectation that all Y11 students will spend a minimum of 45 minutes each week on Mathematics homework. The key focus is to build exam skills and consolidate knowledge of topics taught in previous years.

Years 7, 8 and 9 - KS3:

It is an expectation that all Y7 and Y8 students will spend a minimum of 30 minutes each week on homework. The key focus is to consolidate knowledge taught in lessons and retrieve previous learning

Types of homework

Homework within Mathematics might include things like:

- SPARX Maths (Years 7 and 8)
- Exam questions
- www.Hegartymaths.com links
- Microsoft Forms quizzes
- Key Definitions to revise
- Researching concepts
- Consolidation of lesson activities

Non-completion of homework

- If homework is not completed on time, students' parents will be notified on Satchel:One.
- If homework is not completed on multiple occasions, this will result in session 6 after school to ensure students catch up on their learning.

Parents/Careers roles in Homework

The parents/carers role in homework is primarily to encourage independence and promote the importance of homework.

Students responsibility

- Students need to record the homework
- Students need to meet the homework deadline
- Problems with homework should be resolved before the deadline with the teacher that set the work or the Head of Mathematics.
- Students should take pride in their homework and do their best
